10 YEAR ANNIVERSARY

GREENLIGHT

FILM FESTIVAL

The Greenlight Film Festival will be broadcast live from the Cubberley Theater!

NO ENTRY FEE — \$1,000 in PRIZES

GREENLIGHT FILM FEST

Welcome filmmakers!

Greenlight 2015 offers a fun new challenge for filmmakers! Your 5-minute or shorter video **must address one of the following topics** using comedy, animation, drama, fiction, documentary, clay-mation, stop-motion, or a combination of film genres and techniques. Do research, be creative, have fun!

2015 TOPICS

- 1 ZERO WASTE** We can minimize the amount of waste we generate through recycling and reuse of existing materials. What is your city or county doing to embrace the concept of Zero Waste?
- 2 LITTER** Many cities have adopted bans to reduce waste and help stop litter. What bans has your city considered or adopted to help reduce litter in your community?
- 3 FOOD WASTE** Do you know Americans throw away 25% of the food they buy? When we waste food we also waste fuel, water and money. Food waste in landfills generates greenhouse gases that contribute to climate change. How can we reduce food waste?
- 4 CALIFORNIA DROUGHT** California is experiencing one of the worst droughts in its history. What are some of the impacts? What can we do to reduce water use?
- 5 CLIMATE CHANGE** Over the past century climate change has affected ecosystems and societies across the globe. What are some of the impacts? How can we stop this phenomenon?
- 6 ENERGY** How have fossil fuels affected the environment? What are the benefits of using renewable energy? How do you conserve energy?
